3. Danger identification

The use of this product is for intentional use and must be carried out according to the manufacturer's instructions. May be harmful if swallowed. Avoid contact with eyes.

4. Steps for first aid

Inhalation: Not applicable

Skin: Not applicable, product intended for body hygiene (Solid Soap) After applying the product to the skin, it must be removed with water.

Eyes: In case of contact with eyes, rinse immediately with plenty of water. If contact lenses are worn, these should be removed.

Ingestion: Wash out mouth with water. Do not induce vomiting. Contact Anti poison center if necessary.

5. Fireproof measures

General measures, there are no specific measures.

6. Measures in case of fortuitous leakage

Clean and wash with water or to absorb with earth or sand. No special measures required.

7. Handling and storage

Apply the product according to its use.

Keep the product in its original packaging at room temperature and in a cool place.

8. Exposure checking/individual precautions

No occupational exposure limits.

9. Physical and chemical properties

Physical condition at 25°C:	Solid
Colour:	May present different colours (lilac, blue, pink, green)
pH at 20°C:	8,5 – 10,5

10. Stability and reactivity

Stable under storage and handling conditions.

11. Toxicological information

Since it is not a cosmetic product considered to be a dangerous substance, it is nevertheless subject to a safety assessment for human health taking into account the general toxicological profile of the ingredients, their level of exposure and their age range. This formulation is considered safe with ingredients in adequate proportions and in concentrations within the limits permitted by legislation. These products are considered not toxic if employed in the normal use conditions.
Contents: nothing to report

12. Ecological information

No problem is foreseen in the environment with the normal use conditions.

13. Considerations on the draining

To be eliminated according to the local regulations. Avoid the elimination in the drain system and in the environment.
Waste code as per the European waste land office (C.E.R.) 07.06.99 expired cosmetics

14. Transport information

Not subject to ADR / IATA / IMDG codes.

15. Classification and labelling

This type of product must be treated and labelled according to the regulations in force (Regulation EC 1223/2009)

16. Other information

This document is based on current knowledge of the product. It is advised that the handling of any chemical substance requires prior knowledge of its hazards by the user.
